Here and There

Editorial By ALEX. H. WASHBURN

THE Hempstead Quorum Court will be in session Monday. If your newspaper had a difference of opinion with the county's elective officers regarding the initiative salary act, which was voted down last Tuesday, it was only for the reason that the law takes care of the office-holder—but it is up to the rest of us to see that the county takes care of those public problems which forever are the burden of government.

Brazil Offers a Real Threat for American Cotton

It Has the Land and Climate, But Lacks Aggressive Farm Workers

NO FOOD PROBLEM

Last Year's Brazilian Production Well Above 5-Year Average

By the Extension Service

India, Egypt, and Russia decreased cotton acreage in 1934, and their future cotton growing expansion seems limited. It has been seen in previous articles in this series prepared from material furnished by the Cotton Section of the Agricultural Adjustment Administration.

China, it has been shown, is severely handicapped by need of land for food and by poor transportation, indicating that cotton acreage increased in China will probably come very slowly.

In South America the situation is somewhat different. Brazil offers a real threat to American cotton supremacy.

It is believed that nearly all of that country, if cleared, would be suitable to cotton production. Brazil is larger than the United States. The 1933-34 crop is expected to total 830,000 bales. The previous five-year average was 514,000 bales per year.

Cotton has been grown in Brazil almost as long as it has been in the United States. Brazil must have real problems or cotton production would already have increased much more than it has. The greatest drawback is said to be in the character of the people, who are partly negro, partly Indian and partly European. They farm an average of only 2½ acres of cotton per farmer, and don't like to do that because of the hoeing and picking. They are a hunting and fishing type and will probably have to be replaced by imported farmers if cotton production is to expand much.

Brazil is a thinly settled country in no danger of food shortage as India and China, but cotton expansion must await the clearing of dense hardwood forests as well as a change in type of people. It will require vast sums of money, probably from outside sources, to clear Brazilian lands for cultivation. Only the spur of unusually high cotton prices over a long period of years is apt to tempt investors.

Cost of production is so high that there is little immediate danger of serious competition from Brazil. During the past 12 months, Brazilian cotton prices have declined more than in any other important cotton growing country. This should tend to limit further increases. It is also believed that the present infestation of pink boll worm will help restrict cotton production in Brazil for considerable time.

American cotton prices brought up to parity by the AAA cotton program will not be high enough, it is believed to offer any great encouragement to Brazil to go the limit in cotton production. Should American prices get unusually high and remain there for a long period of years, Brazilian competition might seriously increase. The AAA cotton plan calls for only sensible adjustment of supply to demand to insure reasonable price and to eliminate the terrific drops in price which usually follow two big crops.

FLAPPER FANNY SAYS:

Bobcats Run Over Prescott 34 to 6

Hope's Powerful Eleven Marches to Easy Victory

3,000 Spectators Thrilled by Flashes of Gridiron Conflict

PRESCOTT STIFFENS

Battles on Closer Terms After Yielding 3 Safe-ties in Opener

By Leonard Ellis

Displaying powerful offensive thrusts, the Hope High School football team drove to a one-sided 34 to 6 victory over the Prescott Wolves in a renewal of gridiron rivalry here Friday night before some 3,000 spectators.

Although expected to give the Bobcats a close battle, the Wolves were never in the running, had only one chance to score, and executed a pass to account for it.

Gaining possession of the ball soon after the game started, a slashing, tearing Bobcat aggression marched down the field and across the goal line three times in the opening quarter and then took things easy the rest of the way, at the same time adding touchdowns in the third and final periods.

Prescott's lone tally came in the second quarter when Bevers, right end, slipped behind the Bobcat safety to snare a pass tossed from the 30-yard line.

Determined resistance of the mighty Bobcat line was demonstrated in three periods of the game, holding Prescott without even as much as a first down.

First Downs 19-5

In the second quarter, however, against substitute players, the Wolves registered five first downs—their total for 60 minutes of play. The Bobcats rolled up a total of 19.

Led by the fast-stopping Guy Payne and the battering Bobcat fullback, Spears, the locals harassed and humiliated their heavier opponents by marching 40 yards for a touchdown as soon as they gained possession of the ball on a punt after Prescott was held for downs.

A second touchdown followed immediately when Owens recovered a free kick on the Prescott 8-yard line. Spears and Turner hit the line and then Spears plunged over.

A 21-yard pass from Payne to Anderson who was downed on the two-yard line paved the way for Hope's third touchdown. Turner slopped off tackle for the marker, and the Bobcats were out in front with a 21-point lead as the whistle ended the first quarter.

The third period saw the Bobcats put on a 30-yard sustained drive to score. Taking the ball in midfield, Spears slashed off tackle for seven yards. Stroud picked up nine more. Payne passed to Kennedy at end to place the ball on the 9-yard line, where Stroud and Spears advanced it to within four yards of the goal. On the next play Payne swept around right end for a touchdown.

In the final quarter the Bobcats drove to within the 20-yard stripe twice only to have their chances of scoring offset by severe penalties. An exchange of punts followed with Hope getting the ball on Prescott's 40-yard line.

Final Touchdown

Turner ripped off eight yards and Payne made it a first down. Speedy dropped back and shot a 15-yard pass to Turner who was downed on the five-yard line. From that point Spears plunged for a touchdown. He added the extra point on a line play off tackle.

Near the close of the game the Bobcats opened up with a desperate air raid with the crippled Ken Madison shooting spirals to all corners of the field. None failed to connect and on a fourth down Madison was rushed, but managed to get away for 10 yards and a first down.

Again he took to the air, threw four long passes in succession. All were incomplete or battered down, and Prescott took possession of the ball. Prescott attempted one play, failed to gain and the game ended.

Scoring touchdowns for Hope were: Payne 2, Spears 2, and Turner 1. Bevers made the touchdown for Prescott.

The longest run of the game was made by Payne on a fake punt in the second quarter, good for 35 yards. He reeled off several dashes for 15, 20 and 25-yard gains. His return of punts was sensational.

Spears, dependable and a consistent ground gainer, turned in a bang up game both on offense and defense. Jack Turner came through with several nice runs as did Speedy and Stroud. Madison, running mate of Payne, played little of the game due to an injured leg.

Captain Kennedy at end, played his usual strong game besides calling signals. Anderson, Moore, Richards, Hol-

Governor Futrell Demands Teachers Submit a Program

Money Is Root of the School Trouble, and Futrell Suggests Putting Teeth Into Tax Land Sales

LITTLE ROCK.—Governor Futrell bluntly and impatiently told the Arkansas Education Association Friday night that the educators of the state must themselves work out a plan of salvation for the schools and carry their own fight for increased revenue before the legislature.

The governor almost angrily denied any responsibility for the present condition of the schools and challenged the educators to "stop talking generalities and work out a specific plan."

"The administration is accused of being responsible for the downfall of the schools," he said. "The governor has no authority over the schools, has nothing to do with imposing or collecting taxes. The schools now have every single source of revenue they ever had."

"The lack of money is the sole trouble with the schools, of course. You know that. There is no use in whipping the devil around the stump. I suppose I am responsible for the fact that evaluation of property has dropped a third and that collection of taxes has fallen off 45 per cent."

"One difficulty is that tax sales are only a gesture. In all my practice of law and service on the bench, I have never found a valid tax sale. Property taxes are a principal source of revenue for the schools, and unless the taxes are collected, the schools will suffer."

The governor suggested two methods of increasing tax collections: Passage of a law to make tax sales valid and publication of delinquent tax lists, which in his opinion, would increase tax collections by 25 per cent.

Urges Teachers to Act

"The school problem is primarily a legislative problem," the governor said. "The school people should take the lead in solving it. I had hoped this association would, during this meeting, work out a definite plan, but it hasn't been done and I am disappointed."

"The Board of Education has no plan, and it will never get anywhere until it does have one. Get your heads together, with the Board of Education and the parent-teacher associations, and work out a specific plan for collecting more revenue for the schools."

"You must have a united front. I have found in talking with educators that they are not agreed on what they want. I am not dogmatic about the educational problem. If you don't like my plan, maybe I'll like yours, and we can work together on it. I'll give you my support on any reasonable and fair program."

Revision Needed

"The system of education in this state ought to be changed," the governor declared. "There should be an attempt to have a high school when it is not economically sound to have one, and you teachers know when that is true."

"We ought to have six-month, state-supported schools to the eighth grade. We cannot hope to do more now. We must face the facts. Let the high schools be supported by local taxes in districts that can afford them and give every rural child an opportunity to go to school for six months and through the eighth grade. That is not done now in Arkansas and has never been done."

"Another thing. We have too much duplication in our higher institutions. The work done in the four agricultural and mechanical colleges should not be duplicated in the university. The legislature meets next January. Now is the time for action. It is cowardly to say I am responsible for the condition of the schools when you know it is not true. It doesn't do any good to go with scurrilous abuse of me in the newspapers."

"Let's co-operate, and do something substantial. The school people must do something. The government is helping you, but don't depend on that. That is really relief work."

"Don't deal in generalities. Give us a plan. Don't talk all around things. Let the Board of Education, which has the authority over the schools and which is elected by the people, take the lead and show the legislature the way."

Financial Scandal

Levy Promotion Breaks Down, Like Stavisky Case Before It

PARIS, France.—(AP)—The new French government investigated Saturday a fresh financial scandal, reminiscent of the notorious Stavisky affair which toppled cabinets.

The finance ministry Saturday ordered an inquiry into the charges brought against Charles Levy and his cousin, Joseph Levy.

They are accused of floating several hundred million francs' worth of bonds and juggling their accounts through a network of firms.

Like Stavisky Affair

PARIS, France.—(AP)—Revelations of an alleged financial swindle of vast proportions, involving the juggling of millions of francs through a complex network of companies were made by police after the arrest of Joseph Levy Friday.

Police struck at the activities of Levy, and his cousin, Charles Levy, Thursday night and Friday made a search of their offices.

The case broke the day Gaston Doumergue stepped out as premier of France, and Pierre Etienne Flandin became head of the government.

The Levys, charged with abuse of confidence, floated several hundreds of millions of francs worth of bonds for a network of companies. Several men high in the government were on the decorative of some of the firms. It was charged by the police that the government paid 1,900,000 francs to one of the Levy companies to be passed on by it to manufacturers whose plants were damaged in the war. The manufacturers, the charges continued, did not receive the money.

The new premier, who realized that the Stavisky scandal almost brought on a revolution, has urged the press to watch the new case.

County Agent Up to Quorum Court Session Monday

Financial Problem May Threaten Continuance of Local Program

AAA CASH NEEDED

\$300,000 Program Hindered if Transferred Out of the County

The fate of Hempstead county's farm agent, on whose shoulders rests the detailed work of administering between \$300,000 and \$400,000 annually in AAA benefit payments to local farmers, may be at stake Monday when the annual levying session of the Hempstead county Quorum Court meets at the courthouse in Washington.

Although Hempstead went along without the farm agent for several years, that was before the inauguration of the restricted cotton-acreage program and the cotton processing tax laws.

Justices from all over the county will meet in Washington Monday to review tax revenues of the past year and the prospects for 1935, which are reported slim.

A report current on the streets of Hope Saturday that the county would lack \$1,000 of covering the county agent's contract next year could not be verified—but the report had city men and farmers who have kept up with the figures on federal farm payments in this county worried as to the future of this public office.

It was pointed out Saturday that if Hempstead gave up the farm agent the AAA program would probably be administered from the Nevada county agent's office in Prescott. In this event it would be natural for Nevada county's AAA work to be taken care of ahead of Hempstead's.

The morning session Monday will probably see the appointment of appropriations and other committees of the Quorum Court, followed by the drafting of the budget and other routine matters for presentation to the court during the afternoon.

Nashville Is Beaten by Yegger 13 to 6

Yegger High School Tigers triumphed over a Nashville negro football team here Friday afternoon, 13 to 6.

Touchdowns for Hope were made by Cooper, fullback, on a line play and Nelson, quarterback. The victory Friday was the second of the season for the Yegger team.

A negro team from Hope Springs will play here next week.

Bulletins

PHOENIX, Ariz.—(AP)—Gov. B. B. Moer Saturday declared martial law along the Colorado river on the Arizona side of the Parker division dam site. His action grew out of the building of a temporary bridge across the river which the governor said is a direct encroachment on Arizona's rights.

LITTLE ROCK.—(AP)—The Arkansas Educational association adjourned its annual convention here Saturday with the presentation of the delegates to the new officers, headed by Harvey C. Haley, president, Hot Springs.

LITTLE ROCK.—(AP)—The opinion that no increase in the state tax rate would be necessary to meet the obligations of the State Agricultural Credit Board was expressed Saturday by State Comptroller Griffin Smith, following an audit of the board's books.

The survey of the credit board's books was undertaken after the state auditor earlier this week certified a ½-mill increase in the state tax levy to bring the total levy to 9.2 mills as a means of guaranteeing interest and principal payments on Agricultural Credit Board bonds.

More than \$10,000,000 in loans was obtained by Arkansas farmers as a result of the issuing of the state bonds. Governor Futrell is ex-officio chairman, and Jay H. Myers of Walnut Ridge is secretary.

When the state board this year did not adopt a resolution asking that the levy be withheld, the auditor asked an opinion from the attorney general's office. Assistant Attorney General Robert F. Smith wrote:

"You have no discretion in the matter as the tax is specifically levied by the statute aforesaid. Particularly is this true in the absence of any action by the state Agricultural Credit Board advising that the levy will not be needed."

Mr. Myers made the following statement earlier in the week:

"When the bill was passed creating the tax board, it was anticipated that the tax would have to be levied within a few years, because of the slack and loss in collections."

"Arkansas credit has improved a little recently and we felt that we didn't take a chance of defaulting payments on the bonds due next year."

"I do not believe the tax will have to be levied more than one or two years, but I think it must be collected next year."

"Of course such a return is gratifying," said Dr. W. B. Grayson, State Health Officer and director of the baby registration campaign which has been carried on for the past six weeks as a joint project of the Bureau of Vital Statistics of the State Board of Health, the Federal Bureau of the Census and the Arkansas Emergency Relief Administration. "However, we know that there are many babies in the state whose births have not been reported and to make the campaign a success all of them should be reported." Dr. Grayson continued.

"There is still time for parents to report babies born in the past year. They may obtain a census card from the Relief Officer in this territory, from the local Postmaster, or direct from the Bureau of Vital Statistics in Little Rock."

The compilation to date shows that between 15 and 20 thousand cards have been received from Arkansas families reporting babies born in the past year. There is an estimated birth rate in the state of approximately 36,000 a year, and the check should be much better than is possible by present returns. The FERA clerks on extra duty with the bureau of Vital Statistics are now checking against present records, and are anxious that every baby born in the state in the past year is properly registered.

Italy's Corporate State Is Launched

Industrial Delegates, Labor and Capital, Replace Parliament

ROME, Italy.—(AP)—Benito Mussolini's new corporative state begins its existence Saturday.

A reform designed to tear out the roots of parliamentary government, the long prepared state, in which industry, commerce, business and the professions will make their own laws, will be formally set up by 11 Duce, himself.

Friday night he and his propaganda machine were advertising it to the whole world as something new in modern-day government, something soon to be copied by other states.

Mussolini is expected to make one of his most important speeches of recent years at the opening ceremony. This will take place in the Julius Caesar hall of the capitol, where he will address 739 persons, making up the first general assembly of the new legislative bodies.

Representatives of capital, labor and the Fascist party will hear him speak. They will constitute the governing boards of 22 corporations, or "self governing" category organizations, to be officially brought into being at the meeting.

Each of these corporations will represent a branch of the nation's productive or working life. In each, delegates of the workers will sit with delegates of capital with appointees of the party holding the balance of voting power.

Mussolini will be elected president of every corporation, of the General Assembly and of the National Council of Corporations, which will bring together delegates from the individual corporations and will be vested with final law-enacting powers.

Special Session in Louisiana Is Called by the "Kingfish"

Emergency Program Would Suspend Payments for 2 Years

LONG-TERM DEBTS

Louisiana Legislature Expected to Convene Monday

BATON ROUGE, La.—(AP)—Senator Huey P. Long Saturday planned a two-year moratorium on "all debt" in Louisiana by a special session legislative act.

The senator, at the governor's office Saturday to draft bills for the special session, which is expected to convene by Monday night, set to work enthusiastically on his debt-erasure idea.

Long said his plan was to grant moratoria on old debts, indicating that meant obligations of long standing that could not be immediately paid up, and were burdens to the average man.

Plans include all kinds of debt. Long said:

"A man'll have to show there's good reason for the moratorium. If he doesn't get the relief he thinks he should, he'll be able to appeal to a court."

Long plans to have the Public Service Commission issue the debt reprieve.

Half of County's Babies Registered

329 Reported to Census Bureau Against Average of 678

LITTLE ROCK.—The first check on the Baby Census cards from Hempstead county shows that 329 have been received as the time limit for the first Arkansas "Register Your Baby" campaign draws to a close. The Federal Bureau of the Census estimates that the birth rate for Arkansas is 22 per thousand population.

Hempstead county, according to the 1930 census, showed a population of 39,847. On this basis 878 babies should have been born in this county during the past year. The cards returned thus indicate that a report 49 per cent efficient has been received.

"Of course such a return is gratifying," said Dr. W. B. Grayson, State Health Officer and director of the baby registration campaign which has been carried on for the past six weeks as a joint project of the Bureau of Vital Statistics of the State Board of Health, the Federal Bureau of the Census and the Arkansas Emergency Relief Administration. THE TRUE MEMORIAL

Armistice Day Poem
The trumpets peal their clamor and the drum
Rolls a mad paeon through the city's streets;
The flag streams bravely and the countless feet
Roar like a sea, as thronging thousands come
Triumphant. Far they lie forever dumb,
Those brave young lives for noble years so met,
Lost to the future, never more to greet
The morn with gladness. Seek ye now if some
Star-high memorial our hands may rear
To those who won but never saw this day,
To those whose blood cemented proud
"Triumphs are!"
But pass not through. Go rid the land of fear,
Cruel war, foul dealing; every despot slay!
Thus make the years, for them, one glory march—Selected.

Camden Smashes Hot Springs 7-0

Panthers Break Spa's Winning Streak—Had Lost Wilbur Green

HOT SPRINGS, Ark. — The state high school football standing was scrambled in a fine manner on Rix Field Friday night when the Camden High School Panthers came to town, clawed, chewed and otherwise bruised and mistreated the heretofore undefeated Hot Springs High School Trojan eleven and trotted off with the biggest upset of the season, a victory 7 to 0, over Coach Mervin Perry's sterling athletes.

It was a great game to watch and a tough one to lose. Outweighed considerably, the Trojans held on several occasions when the ball was within a yard of their goal line.

Until Friday night the bright star of the locals was little Paul Longinotti, quarterback, whose passing and running have been the talk of the Arkansas high school football world. The Panthers elected to make Paul their chief objective, and they succeeded in a manner that stunned 5,000 or more rovers.

Only on two occasions did the little Italian line get started. Once he electrified the customers by leaping five feet in the air to snatch a long heave by Westbrook. He carried the ball back about 20 yards.

On another occasion he ran around for 20 yards, but there was none of the brilliant broken field sprinting the spectators wanted Longinotti to give them. Little Paul was almost completely smothered.

Then, too, Longinotti played in hard luck. While he did not seem to be passing with his usual brilliancy, most of his losses went into the hands of Camden players.

After two week's investigation, Wilbur Greene, all-state end of the Hot Springs team, was ruled ineligible for further high school competition.

The decision was made by the Executive Committee of the Arkansas Athletic Association here Friday. The committee held that Greene was over 21, the maximum age limit for high school athletes in Arkansas.

Last Message of Jesus Is Recalled

Mrs. Beasley Preaches to Large Congregation Friday Night

The Rev. Mrs. Beasley preached to a large audience at the Hope Gospel Tabernacle Friday night on the "Baptism of the Holy Spirit," using the last recorded words of Jesus Christ before His ascension into heaven as her text, Acts 1:8.

The last words or last message that anyone leaves is usually remembered and seriously considered. In the verses preceding the text Christ had told the disciples "not to depart from Jerusalem, but wait for the Promise of the Father." Of all the promises in the Bible the promise of God that He would Baptize His children with the Holy Spirit is singled out as "the promise of the Father." These verses emphasize the exceeding importance which Christ Himself attached to the blessing of the infilling of the Holy Spirit.

"The world," said Mrs. Beasley "cannot receive it. Christ, in His high-priestly prayer in the 17th chapter of John said 'I pray not for the world, but for them which thou hast given me' and further 'Sanctify them through thy truth: thy word is truth.' Lots of people do not follow God because it is not popular. There always was a reproach to living a separated life to Christ."

"After the ascension of Christ they all returned to Jerusalem and waited for the coming of the Holy Spirit. He did not give up after surviving one day or two days but on the tenth day 'Suddenly there came a sound from heaven—and they were all filled with the Holy Ghost, and began to speak with other tongues, as the Spirit gave them utterance.' As the multitude stood there and saw the glory and Shekinah of God upon those people it brought conviction. If there ever was a time that the church of Jesus Christ needed to be filled with the Holy Ghost it is today. Nothing will give you faith, power and ability like the power of the Holy Spirit. It is not a fanatical experience but an endowment of power for service. And the promise of the Father is for you tonight if you will pay the price. The revival will continue on into next week."

Washington Road Given New Gravel

Is Laid on Dangerous Shoulders of Narrow Stretch of Paving

The State Highway Department Saturday is completing the graveling of the shoulders of the narrow pavement on the Hope end of the Washington highway.

Graveling of this road, which is dangerous when wet weather makes the dirt shoulders slick, was begun a few weeks after The Star editorially pointed out that the work was particularly necessary because this old pavement is not of standard width, and cars frequently have to run out on the shoulder in order to pass trucks.

NEWS CHURCHES

FIRST BAPTIST

The pastor will preach at both services on Sunday, speaking at the morning hour on "The Matchless Word of Jesus" and at the evening hour on "Thomas—the Convicted." There will be special music at both services, with the usual period of congregational singing at the evening hour with Claude Taylor leading.

The Sunday school continues to grow. Quarters have been arranged for every department, and the various teachers and officers are now settled into their new surroundings and are doing splendid work. There is a class for every group, and no person need stay away from Sunday school for fear they will not be made welcome.

The B. T. U. (BYPU) is meeting at 8:30 and has a new unit. The B. A. U. Baptist Adult Union, has been organized and is meeting each Sunday evening in the auditorium of the church. The organization of this group completes the B. T. U. and provides a group for every age including junior, intermediate, senior and adult.
